NANO-POD!

- 1. Horizontal Realignment
- 2. Outward and Inward Splay
- 3. Toe-In and Toe-Out
- 4. Fin Replacement

4WFS - NANO POD [under the glass installation box]

The NEW 4WFS Under The Glass (UTG) NANO POD is installed before the board is laminated. This new design allows installation time to be significantly reduced, only aprox 10min is required for a full thruster set to be installed to lamination stage. New re-engineered features maximising strength and durability.
